

BUSINESS METHOD PATENTS: HERE TO STAY

The use of Business Method Patents has exploded recently. Various industries that have not previously considered filing for patent protection are becoming aggressive in protecting their intellectual property.

The presentation will define the scope of Business Method patents, explore the type of protection these patents can provide, address the current developments, and provide recommendations and strategies for obtaining protection.

Tuesday, May 15

3:00 Registration / Program 3:30-5 p.m.
